SSIM 2023

Third International Slope Stability in Mining Conference
14–16 November 2023 | Perth, Western Australia

SPONSORSHIP & DISPLAY OPPORTUNITIES

BACKGROUND

The Third International Slope Stability in Mining Conference (SSIM 2023) will provide a forum for open pit mining practitioners, consultants, researchers and suppliers worldwide to exchange views on best practice and state-of-the-art slope technologies.

Best practice with respect to pit slope investigations, design, implementation and performance monitoring will be discussed during the conference.

With a target audience of open pit mining operators and professionals, the ACG team is committed to continuing the provision of technology transfer to industry. As such, the ACG is delighted to host this event and provide the opportunity for discussion, learning and networking.

Previous events in this series have been hosted in:

- First Asia Pacific Slope Stability in Mining Conference, Brisbane, Australia, 2016
- Second International Slope Stability in Mining Conference, Perth, Western Australia, 2021

* The ACG reserves the right to alter the format of the event.

PROMOTION

The ACG is undertaking a niche marketing campaign to promote this conference to local and international professionals via:

- Internet marketing — promotion via the dedicated conference website, ACG website and other mining event website.
- Industry association including The University of Western Australia
- Direct mail campaign — event specific flyers, registration brochures and targeted electronic mail to almost 7,000 global mining professionals
- Media support and coverage from reputable industry journals, magazines and newsletters
- International and local exposure through the activities and support of key industry personnel
- Regular communication to ACG mining event past delegates
- Promotion at selected ACG and international geotechnical engineering events
- Promotion on the ACG and specific event LinkedIn pages, with a reach of 6,000+ followers
